Writing

"Do young people today make good use of their free time?"

Comments

Well, in the recent times it is often considered that young generation spend their free time absolutely useless. All day long the youth wastes ~~the~~ time on their phones, watching meaningless videos, playing games and etc. But don't you think that there is a lot of pursuits that "gen Z" can acquire through their free time spend on-line?

To begin with, youngsters have an ability to learn new things via technologies really effectively. Due to the fact that they have access to get an amazing mentor from any country they wish. The popularity of online courses is a prime example of my statement.

The next point to consider is that nowadays young people have more resources to share their interests. Social networks, YouTube and different websites are a good examples. Furthermore, when person have an interesting hobby, he wants to show his creation to others and as a consequence, the communities interaction inspires to keep going.

To conclude, I would like to say that in my humble opinion, young generation nowadays is really impressive, ~~and~~ they use their time with accuracy and appropriate approach. I wish I could see more talented and creative youth over the whole world. Keep learning new things guys and good luck!
