(E)

We live in the world in which IT progress is achieved high successes, we have lots of entertainments and equipments for development of young people. Some teenagers are convinced that they are able to manage their free time how they want; watching TV, using smartphones, playing games and so on. Others believe that life which was given as must be ~~live~~ reading and taking, living not just for yourself. We have to ~~every~~ do good things such as protect wildlife, animals and etc. because young people is our future. Let me to see two this points.

Teenagers should develop themselves for our future world. Undoubtedly, young people can relax and enjoy the life on the Earth but they often like to do nothing and just ~~have~~ bought potatoes. It is awful for our country that is why young people don't have to waste their time. The problem of present gap is the laziness. People ~~got~~ have got used to live in their enjoyment and they stop to think about because of appearing the Internet. Young people often download Tik-Tok and depend on this app. They are depend on social media. In addition to it, they aren't interested in lots of thing such as environment, travels, economic and so on. They often have FOMO.

Without a doubt, in our country there are a lot of young people who make good use of their free time. Such kind teenagers learn foreign languages, help homeless people and animals, they are also have hobby and favourite leisure. This kind of teens can be noticed and invited to the Institutes because they behave themselves like adults. Helping mother or friends ~~is a good~~ actions too. It is better than lying on the sofa ~~for hours~~. Young people have to distribute their time rightly and give some use to our life and future. In a nutshell, teens ~~can~~ should be useful for the world where they live.

In conclusion, I want to say that teenagers should use their time
