Do young people today make good use of their free time?

It's not a secret for everyone that a big amount of young people aren't use their free time in a good way. Mostly, young people are spending their free time by surfing the net or playing video games. And only less of them are making their way up for the future career.

I think the main reason of their bad use of free time is that they don't understand how to use it.

I can take as an example my friend. He is very keen on playing games. The main reason of his playing games is that he find it boring to spend his free time by reading a book or just improving own knowledge.

But otherwise he learns IT. He started learning it, because he wants to creat his own web-site, where the customers will be able to trade with other customers.

People should use their free time in a good way!
